

# STILL LOVING YOU

## GALNERYUS

Wonder why you left on that night  
Wonder what you thought at that time  
What can I do? Have I lost you?  
What should I do? Have I lost you?The season passes early for me  
Something is lost from my body  
Crazy about you, love you from my heart  
Still loving you, love you from my heartI regret my very happy days  
Memories are fading away  
I feel the night and daysSomebody said, "You must forget..."  
But I cannot do yet  
It's cold in my bedOh, there is no woman meant more than you  
I wanna meet wanna touch  
Do you hear this prayer of me?  
I thought that love with you was forever  
I miss you, we'll surely meet in the futureI don't know where and with whom you live now  
It is not in my mind  
Now all of you are not mine  
I thought that love with you was forever  
I miss you, we'll surely meet in the futureAnd I wish this pain would go  
There is your shadowSomebody said, "You must forget..."  
But I cannot do yet  
It's cold in my bedOh, there is no woman meant more than you  
I wanna meet wanna touch  
Do you hear this prayer of me?  
I thought that love with you was forever  
I miss you, we'll surely meet in the futureI don't know where and with whom you live now  
It is not in my mind  
Now all of you are not mine  
I thought that love with you was forever  
I miss you, we'll surely meet in the future
