

Little By Little

Groove Armada

Give it out, give it out, give it out
Give it out, give it away, give it away
Give it out, give it out, give it away
Today, today, today, today, today
Today, today, today, today
Yeah yeah yeah
Perhaps we're on own way
Perhaps we've gone too far
Perhaps we should slow down
Be where we really are, really are, yeah
Today, today
If you believe that there is no other way
Trying living, today today
Little by little in your own way
Today
Little by little
Trying living today, today
Little by little
We're in today today
If you believe that there is no other way
Trying living today, today, little by little
You're on your own way
Perhaps we're on own way
Perhaps we've gone too far
Perhaps we should slow down
Be where we really are
Where we really are
Where we really are
Today, today
Trying living today, today
Today
Little by little
Trying living today today
Little by little
Be where we really are
Little by little
Today, today
Be where we really are
