Kabaka Pyramid

Prophecy... Prophecy.... Prophecy

Kabaka pyramid:

First of all let me tek it back to basics

Way before dem slave ships.

Africa is the basis

Of human inters matrix

In my DNA is,

The history of the races

Images of places

Were visited and standing

Evolution changes from minerals to babies

Looking at the fetus witness all dem stages

The wisdom of the ages was given not to sages

Pictures where are when dem and villages of the natives

Leaders were selected

People were protected

Reason was neglected

And believe it was expected

To keep us all connected

Deeply enneted

To the god that we respected

Dem fall not corrected

Brains not developed and spirits are to dwellin

Dem mind nuh communicate with languages and spelling

Travelling and spreading

Planing on rebelling

Races develop in the one ah still disending

Building large cities was part of another stranding

Religion was the engine

Division over blending

Only the few could get the knowledge that was pending

Until crimes entered into yesterday of ending

To deliver deh..... PROPHECY

Delivered from isims and this gizims of the feature
Physic abilities and seal with dem ah features
Tap into the memories of nature when nuh filter

Volunteerely the strong will lead the weaker and the fact
That is known need for money mek it sweeter
