V

Iced Earth

His mind is worn and so tortured
Suffering was part of the plan
Blades flying swift with justice
Remember the idea not the manRising up from the fire
Unified to be free
Stoking our fears with their lies
You are the keySedated they kept us all dormant
Unknowing, our lives lived in vain
Like mindless drones we're devoted
Weve welcomed our fate as their slavesPrepare for victory
Our minds have been awakened
Rid your life of tyranny
We are the resistanceNo fear, stand tall
Resist
Tyranny falls
No lives, no war
Resist
Victory callsRising up from the fire
Unified to be free
Stoking our fears with their lies
You are the keyIn the end we were coiled with the serpent
It took all we had to break free
Our victory, it came without violence
We vanquished, they fell to their kneesPrepare for victory
Our minds have been awakened
Rid your life of tyranny
We are the resistancePrepare for victory
Our minds have been awakened
Rid your life of tyranny
We are the resistanceNo fear, stand tall
Resist
Tyranny falls
No lives, no war
Resist
Victory callsVictory callsTyranny falls
