# MISLED

## The Quireboys

Twisted, intricate, obscure and tangled
Double edged through my head leaving me mangled, I can't handle
Incomprehensible questions and words
Created from all of the stories you heard
These complications are going too far
And show me exactly who you are
It should never be this hard
It should never be this hard
Mislead into thinking that everything's okay
Misread my answers 'cause all of the hear say
You'll understand someday soon
Changed my direction, redefined my intention

How can you mention the good that we had
When everything else makes me mad?
It should never be this hard
It should never be this hard
Breakaway yea, runaway yea
Hideaway just to get away
It should never be this hard
It should never be this hard
Don't try and make me stay
Just turn your head and walk away yea
