

If You Don't Like Me, Don't Look At Me

[Morrissey](#)

Run, run young man, through the glen
Run young woman, through the glen
See if I care, see if I care, see if I care
See if I care, see if I care, see if I care If you don't like me, then don't look at me
There must be somebody else who can take your gaze a ways
If you don't like me, then don't look at me
There must be somebody else who can take your gaze a ways Run, run young man, through the glen
Run young woman, through the glen
And see if I care, see if I care, see if I care
See if I care, see if I care, see if I care If you don't like me, then don't look at me
There must be somebody else who can take your gaze a ways
If you don't like me, then don't look at me
There must be somebody else who can take your gaze a ways
A ways, a ways, a ways, a ways
