Only One

Anthea

Where am I
There I am
Close my eyes
In the nighttime
And there you are
Open my eyes
In the morningtime
And there you are
It's really a shame
I get out of my brain
That sits and wonders
If I'm going under
You're the only one
You're the only one
Got my mind on
Got my eye on
You're the only one
You're the only one
Got my mind on
Got my eye on
Got my mind on
Got my eye on
I try to forget
The small thing we had
And I try to get by
But you're there in my mind
I consume myself
With someone else
Only to
Remember you
I wait a day
Then I delay
The final thing
That time will bring
You're the only one
You're the only one
Got my mind on
Got my eye on
You're the only one

You're the only one
Got my mind on
Got my eye on
Got my eye on
Got my mind on
Got my eye on
Close my eyes
In the nighttime
And there you are
Open my eyes
In the morningtime
It's really a shame
I get out of my brain
That sits and wonders
If I'm going under
It's really a shame
I get out of my brain
That sits and wonders
If I'm going under
You're the only one
You're the only one
Got my mind on
Got my eye on
You're the only one
You're the only one
Got my mind on
Got my eye on
My mind on
Got my eye on
Got my eye on
Got my mind on
