

On the Way to the Club

Blur

And on my way to the club
I fell down a hole
All the people there
Said, "You come along" And I, I just wanna be
Darlin', with you
The music's made that way
My eyes are blue, there's nothin' I can do So I stayed in the club
Just rewardin' myself
Happiness
It turned into somethin' else And I just wanna be
Darlin', with you
The music's made that way
My eyes are blue, there's nothin' I can do
