Perfect Kiss

Der Zibet

I stood there beside myself thinking hard about the weather
Then came by a friend of mine suggested we go out together
Then I knew it from the start this friend of mine would fall apart
Pretending not to see his gun, I said let's go out and have some fun
I know you know, we believe in a land of love
I know you know, we believe in a land of love

I have always thought about staying here and going out
Tonight I should have stayed at home playing with my pleasure zone
He has always been so strange I'd often thought he was deranged
Pretending not to see his gun I said let's go out and have some fun
I know you know, we believe in a land of love
I know you know, we believe in a land of love
