You Must Bleed / All Night Long

Turbonegro

Advisory - the following lyrics contain explicit language:

Dressed up in studs and leather
Pushed up against a wall
I wanna see you shake your tail feather
Shift to the banging rollI got no time for love
But you just grab the bait
When you come down
I'll be a thousand light years awayAll night long, you must bleed, bleed for me
All night long, good for you, good for me
All night long, you must bleed, all night longSome think I'm the denim devil
A stardust Anti-Christ
When I deport off Der Nacht and Nebel
I'm a bubble gum 3rd ReichAnd you'd like to see me face down
In empty swimming pool
But I'm still here, so what you gonna do?
Fuck youAll night long, you must bleed, bleed for me
All night long, good for you, good for me
All night long, you must bleed, all night long
All night long, gonna wear my thong, all night longI'm coming on strong, I've been singing my song
I'm the right and you're wrong, you've been making my song
All night longI love Norwegian girls because they are
Beautiful pussies, love them
