# It's Happening Now

## Charlie Daniels

All of my life I've been hearing that Jesus is coming back some day
For two thousand years the world's been waiting he just told us to watch and pray
We don't know the minute nor the hour but the signs that the Bible speaks about
All point to the day of his returning (it's happening now)We may be the raptured generation rumors of war are in the air
Nation in rising against nation false messiahs are appearing everywhere
The word's bein' preached to all the nations
There's famine and flood earthquakes and drought
The Jews have gone back to claim Jerusalem (it's happening now)(Let the righteous rejoice at the sound of his voice let the word be proclaimed)
Let the word be proclaimed
(Let the message be sent to receive and repent for he's coming again)
Coming again
[ guitar ]
(Let the righteous rejoice at the sound of his voice...The hands on the clock are moving faster mumanity's sun is going down
With each passing day the time grows shorter and shorter and shorter and shorter
(It's happening now it's happening now)
