Oh whoa
Oh whoa oh oh
Verse 1:
Your voice makes my heart melt like
Your smile lights up the room
And I can't help myself try and keep myself from falling
Verse 2:
I don't know if this is magic
One which yeah then it happened
Just one kiss from your sweet lips
I'm falling
Chorus:
Oh I'm on the edge and I can't look down
Scared to jump could you help me out
So I'm falling falling falling
Keep falling falling falling
Verse 3:
One word is all it takes
Then my knees get so weak and
Somebody help me please
I'm falling
Chorus:
Oh I'm on the edge and I can't look down
Scared to jump could you help me out
So I'm falling falling falling
Keep falling falling falling
Chorus 2:
Yeah I'm on the edge and I'm stepping out
Afraid to love till you show me how
So I'm falling falling falling
Keep falling falling falling

I know that we could be
If I just jump (2x)
