

Come On Be Good

Dragonette

Enough with the trouble making
Is that what you were saying
But the words stuck in your throat
Come on, be good

To satisfy the curiosity,
You take a bite out of all of the candies
But you found that it won't go down when it should
I know it looks good

But do you want to dance together
Or have you had a change of heart
You could run around forever
But I got what it is you want

I'm making the taste
You're chasing a flavor
You're gonna be saved
I could be your savior
So say your prayers

Now that it's getting brighter
You think you might need something stonger
Or turn the lights on full and go, go home and be good
A dash of something unfamiliar
Could make the mixture that much better
It doesn't taste as it looks it should
So step back, you don't like, it's no good

But do you want to dance together
Or have you had a change of heart
You could run around forever
When I got what it is you want

I'm making the taste
You're chasing a flavor
You're gonna be saved
I could be your savior
So say your prayers

Say your prayers
Say your prayers

Come on, be good
Say your prayers
Come on, be good

So do you want to dance together
Or have you had a change of heart
You could run around forever
When I got what it is you want

I'm making the taste
You're chasing a flavor
You're gonna be saved
I could be your savior
So say your prayers

I'm making the taste
You're chasing a flavor
You're gonna be saved
I could be your savior
So say your prayers
So say your prayers
