Do I Look Like Somebody You Could Love

The Boxtones

Always in my face and never give me space,

You, watch my every move and quiz me for the proof..

Always on defence, when we touch you're always tense slow..

Left in all nights out, done speaking only shout out (oh oh)

oh, we will point out our flaws and we can be so mean..

We can say that we are sorry but our talk is cheap...

It's how we behave,so much louder then words..

so tell me, do i look like somebody you could love
Do i look like somebody you could love..

Live to see the world spin, everything that said, never listen when i speak always have to be repeat..

Trying hard not to give up, what we had is all I want, But you don't think of how i feel and i guess that's don't reveal (oh oh)

We will point out our flaws and we can be so mean,
we can say we're in love but then our talk is cheap...

It's how we behave, it's so much louder then words
so tell me,

Do i look like somebody you could love..
Do i look like somebody you could love....

Do i look like somebody you could love..
Do i look like somebody you could love..

Do i look like somebody you could love..
Do i look like somebody you could love?!....
