To Know You

Nichole Nordeman

Its well past midnight
And Im awake with questions that wont
Wait for daylight
Separating fact from my imaginary fiction
On this shelf of my conviction
I need to find a place
Where You and I come face to faceThomas needed
Proof that You had really risen
Undefeated when he placed his fingers
Where the nails once broke Your skin
Did his faith finally begin?
Ive lied if Ive denied
The common ground Ive shared with himAnd I, I really want to know You
I want to make each day
A different way that I can show You how
I really want to love You
Be patient with my doubt
Im just tryin to figure out Your will
And I really want to know You stillNicodemus could not understand how
You could truly free us
He struggled with the image
Of a grown man born again
We might have been good friends
'Cause sometimes I still question too
How easily we come to YouBut I, I really want to know You
I want to make each day
A different way that I can show You how
I really want to love You
Be patient with my doubt
Im just tryin to figure out Your will
And I really want to know You stillNo more camping on the porch of indecision
No more sleeping under stars of apathy
And it might be easier to dream
But dreamin's not for meAnd I, I really want to know You
I want to make each day
A different way that I can show You how
I really want to love You
Be patient with my doubt
Im just tryin to figure out Your will

And I really want to know You stillI want to know you
I really want to know you
Hey yeah, hey yeah
I really want to know you
I really want to know you
Yeah, yeah, yeah, yeah
