

# Breed

[Lauren Christy](#)

I got soul, I got touch  
Sometimes I maybe got way too much  
I got nothing left to lose I got soil, I got seed  
I got 21'god damn days until I bleed  
I've got nothing left to lose Let the rain come down on me  
Let the rain come down on  
Let the rain come down on me I need to breed, breed, breed, breed  
Breed, breed, breed  
Logynon, Femidom, Microgynon I'm in love, I'm insane  
I'm a pheromone, hormone, mystery train  
I've got nothing left to lose Let the rain come down on me  
Let the rain come down on  
Let the rain come down on me I need to breed, breed, breed, breed,  
Breed, breed, breed  
Logynon, Femidom, Microgynon
