Vegas

Semi Precious Weapons

It started out like a script
In a movie we lived
I know, I know it was trueAnd I will never forget
How our love went regret
Don't know, don't know what to doYou left my heart on the side of the street
Like a cigarette that nobody needs
You're not returning my calls
Like we were nothing at allI guess it's, I guess it's, I guess it'sIt's time to go to Vegas! (x2)
Do everything I always wanted to do
I go to vegas and forget about youYou said it's not what it seems
That it's you and not me
We know, we know where that leadsIt means that you'll disappear
It means that I'll still be here
Waiting, waiting, waitingYou left my heart on the side of the street
Like a cigarette that nobody needs
You're not returning my calls
Like we were nothing at allI guess it's, I guess it's, I guess it'sIt's time to go to Vegas! (x2)
Do everything I always wanted to do
I go to vegas and forget about youYou left my heart on the side of the street
Like a cigaretteIt's time to go to Vegas! (x2)
Do everything I always wanted to do
I go to vegas and forget about you
