

She Loves My Automobile

ZZ Top

She don't love me, she love my automobile

She don't love me, she love my automobile

Well she would do anything just to slide behind the wheel
She said, "What's it gonna take for you to lay your top
on down?"

She said, "What's it gonna take for you to lay your top on down?"

I said, "Honey, why don't you ask me

When we get to the outskirts of town?" Well now she don't care if I'm stoned or sloppy drunk

Well she don't care if I'm stoned or sloppy drunk

Long as she got the keys and there's a spare wheel in her trunk
