Benediction

Stealers Wheel

Genuflect, show respect, dont forget its a papal command
Take your seat, all you need is your rosary beads in your hand
Time to start, cross your heart, be a part of the mystical bandLook at everybody trying to find their own place
Looking for a heaven up high
Working just to get into a state of grace
We know were gonna need it when we dieSay your prayers, feel your fears, shed your tears
Youre afraid of hells fire, as you sit there and pray
Youll get carried away by the choir
And the incense is sweet, takes you right off your feet
Makes you higherLook at everybody trying to find their own place
Looking for a heaven up high
Working just to get into a state of grace
We know were gonna need it when we dieLook at everybody trying to find their own place
Looking for a heaven up high
Working just to get into a state of grace
We know were gonna need it when we die
