

# Crawling Eye

## Misfits

It's such a steep climb  
Up the mountain's south side  
It has a cloud that acts in such peculiar ways  
Accident count rising  
A young girl prophesizing  
To protect their race, they'll seize her mind  
At this altitude, it's freezing  
Aliens control human beings  
No one has lived to tell  
Who's seen the crawling eye?  
At this altitude, it's freezing  
Aliens control human beings  
No one has lived to tell  
Who's seen the crawling eye?  
These evil demon eyes  
Under cloud cover hide  
They have great tentacles to tear apart their prey  
All these men are dying  
Crawling eye decapitizing  
Fiends without a face attack mankind  
At this altitude, it's freezing  
Aliens control human beings  
No one has lived to tell  
Who's seen the crawling eye?  
At this altitude, it's freezing  
Aliens control human beings  
No one has lived to tell  
Who's seen the crawling eye, eye?  
Crawling eye  
Crawling eye
