Dress Like a Target

Superjoint Ritual

Infamously marked
By every generation known
Somehow they look like
The dick's from generations old
But they're new!No one in here is trusted
To kill everyone is to love everyone
Do what you can 'till your busted
Then keep the word
Then keep the wordDress like a target(dress like a target)
Dress like a target(dress like a target)Never to be trusted
To kill anyone is to love everyone
Rise up and never be busted
So keep the word,so keep the wordInfamouslyInfamously hated
Kill every generation known
It's stupid that they look like
The generation's fucking old
But they're new!
They're new because the media says so
They're new because the media likes it
They're new because
The media sucks up
The media sucks upGrow your hair as long as hippies
But we're not hippies,were slippy's
Like the manson family
Dress like a target
(Fuckin' dress like a target)Target us
With massive and sweating hands
Target us
'Cause in your mind's I'm afraid you
Don't existWe're rising up
