

# Giddy On Up

## Laura Bell Bundy

Woo hoo!

Verse 1

Baby, where've you been?  
It's half past ten.  
Oh, look you're late again.  
Busy day, got a lot on your mind?  
You should hear about mine.  
A tall drink of water and a pretty little thing  
were kissing on corner in the pouring rain.  
Turned my head to get a better view  
Oh lord, help me it was you.

Chorus

Didn't love me  
I ain't no fool  
Didn't love me  
No, no, no, no.  
Love, love you let me down  
Making this too easy  
Love, Love you let me down  
Think you should be leaving  
Love, love you let me down  
Let me down  
No you wont string me along  
You better be moving on  
Giddy on up  
Giddy on out

Talking:

(Oh I ain't finished sit back down.)

Verse 2

Been acting pretty strange, didn't want to talk.

Mmm, there's a pep in your walk  
Smiling a lot when you look at your phone  
Theres a change in your tone.  
Ive been through your pockets and smelled your shirts

I don't wear bath and body works  
Should've seen the signs you were sneakin around  
She must be the number on the napkin i found

Chorus  
Didn't love me  
I ain't no fool  
Didn't love me  
No, no, no, no.  
Love, love you let me down  
Making this too easy  
Love, Love you let me down  
Think you should be leaving  
Love, love you let me down  
Let me down  
Ooh you wont string me along  
You better be moving on  
Giddy on up  
Giddy on out

Verse 3  
Oh let me tell you  
I guess you could say that I was blind  
I was blinded by my love  
I did everything for you  
And now push has come to shove  
So lets call the spade to spade  
Was it worth the price you paid?  
Now I am done, I'm the lucky one  
And you can sleep in the bed you made.

Chorus  
Didn't love me  
I ain't no fool  
Didn't love me  
No, no, no, no.  
Love, love you let me down  
Making this too easy  
Love, Love you let me down  
Think you should be leaving  
Love, love you let me down  
Let me down  
Ooh you wont string me along  
Love, love you let me down

Making this too easy  
Love, Love you let me down  
Think you should be leaving  
Love, love you let me down  
    Let me down  
Ooh you wont string me along  
    You better be moving on  
        Giddy on up  
        Giddy on out
