Under My Skin

Girls Under Glass

When I close my eyes
Almost every dark night
I think of you and realize
What we do is rightAnd when I look inside
Life becomes a fight
That never tells the truth
'Cause all I see is youYou take my hand
We understand
Our love and sin
We're living inSo often we tried hard
We await the start
The time to live our dream
You're under my skinYou take my hand
We understand
Our love and sinYou call my name
I hear you again
We share our dreamYou take my hand
We understand
Our love and sinYou call my name
I hear you again
We share our dream
We're living inWe're living in, we're living in
We're living in, we're living in
We're living in, we're living in
We're living in
