

Teenage Wristband

The Twilight Singers

You say you wanna go there, ride then
I did and I loved it
Say you don't wanna be here, leave then Time comes, to get gone
Say good morning to another set of creature
My dear, I'm gone She said, she said, "You wanna go for a ride?"
I got sixteen hours to burn
And I'm gonna stay up all night, all night, all night Tell your mama fever come back again
Look what you started
And break it easy to your boyfriend She said, she said, she said, "You wanna go for a ride?"
I got thirteen hours to burn
And I'm gonna stay up all night, all night, all night She said, she said, "You wanna go for a ride?"
I got no more money to burn
And I'm gonna stay up all night, all night, all night
All night, all night, all night, all night, all night
