Wrecking Ball

Interpol

Can it be true?Nobody warned you, nobody told you
To make up your mind
Nobody told you that I could just waltz through
And shake up your styleI'm inside like the wrecking ball through your eyes
And I change it all from insideStrange and far, all this hardware
Sum of time and no one's for me
Go inside, going somewhere
Hopeless tag time, no one's for me
Open wide, yard like new yearNobody warned you, nobody told you
To make up your mind
Nobody told you that I could just walk through
And shake up your styleI'm inside like the wrecking ball through your eyes
And I change it all from insideStrange and far, all this hardware
Stroke of time and no one's for me
Go inside, going somewhere
Hopeless tag time, no one's for me
Open wide, yard like new year
Stay and fight, stay and fight, stay and fight
