Slade1 Verse1: the great big said it the best, that sky's the limit,9to5 how you survive i rather live it til the limit, So its wealth death & lifetime sentence in prison, life's a bitch came in it and that's a jaded decision, but my walk in this 3piece suit all in rhythm, Straight pimp 1on1 raw from the beginning, first corner of the 4th where i lost my religion, No ties with illuminati but I'm very superstitious,Foul way of living i call it big business,think of james brown payback song all in vengance,innovative with the flow so wheres my percentage,Dont make me put this size 12 in ya ass for my riches, you execs and you listener's just became my bitches, i know i make pimping on wax so easy,I'm cut from a don juan cloth please believe me,mix milton and parnell together so fleecy,

Chorus: wake up, bake up, time to get my cake up, working everyday tryna make my way, to the top, won't stop can't stop never gonna give up i can feel it in my veins, getting closer to my Dreams..(melody) and you know that I'm fighting for this til the end.. The bigger i become the more i'm in my business.

Slade1 2nd verse: so what you wanna go, Trinidad James or triple jayz with a slimshady flow, an illmatic style a makaveli soul, you know what that means more hoes on the stroll,its new gwop city didn't get it now you know, you can't knock my hustle one to see it one to grow, I'm just being honest I'm icewater cold, I'm cocaine cooking on that off-white stove, down from the bottom to up i rose, pimping at its finest a story untold, its rooted in my genes of dominance, good music make dollars thats common sense, I found my blessings with this game and i been rhyiming since, final piece of this shit no argument,i ain't going nowhere cuz you know you need me, cuz you know you love it especially when i say so fleecy,

Chorus: wake up, bake up, time to get my cake up, working everyday tryna make my way, to the top, won't stop can't stop never gonna give up i can feel it in my veins, getting closer to my Dreams..(melody) and you know that I'm fighting for this til the end.. The bigger i become the more i'm in my business.

3rd verse talia levy: i got nothing to lose,, i got everything to prove,, they can say I'm not ready,,what they think will never change me,,i put my life on the line, all the people ive sacrificed,, all the friends that never understood,, its my life i gon do.. what i came to do..(melody) oooo..(melody) Yeah(3times)

Talia levy Chorus: wake up, bake up, time to get my cake up, working everyday tryna make my way, to the top, won't stop can't stop never gonna give up i can feel it in my veins, getting closer to my Dreams..(melody) and you know that I'm fighting for this..
