

# Vapor Trail

[Susan Boyle](#)

Stratospheric traces of our transitory flight  
Trails of condensation held in narrow paths of whiteThe sun is turning black  
The world is turning gray  
All the stars fade from the night  
The oceans drain awayHorizon to horizon, memory written on the wind  
Fading away like an hourglass, grain by grain  
Swept away like voices in a hurricaneIn a vapor trail  
In a vapor trailAtmospheric phases make the transitory last  
Vaporize the memories that freeze the fading pastSilence all the songbirds  
Stilled by the killing frost  
Forests burn to ashes  
Everything is lostHorizon to horizon, memory written on the wind  
Washed away like footprints in the rain  
Swept away like voices in a hurricaneIn a vapor trail  
In a vapor trailWashed away like footprints in the rain  
Swept away like voices in a hurricaneIn a vapor trail  
In a vapor trail  
In a vapor trail  
In a vapor trailIn a vapor trail  
In a vapor trail  
In a vapor trail  
In a vapor trail
