

# Cold War Transmissions

## Anberlin

Side by side we face each other  
Standing here alone together  
Your code ill break,  
You made your last mistake  
Called out cold war  
Remnants now on the floor This is Russian radio here  
Calling you to come back home  
This is Russian radio here  
Run while you still can Different sides we take our stance  
This could be our last goodbye forever  
Your spies come clean,  
They told me everything  
Your moves I make,  
Penance the fire drake And if this is our last goodbye  
Let me kiss your lips of red tonight  
And walk the other way  
Run away, run away  
This is our last,  
This is our last goodbye
