

Absence of Light

Testament

Life as we know is full of gloom
Oppress the masses, we'll lead to our doom
We want the right to live or die
You can't take away what we feel inside
Like empty shadows afflict our brains
Envision dreams just to ease the pain
There's more to life than to satisfy
I ask myself for the reasons why
If it were my way
I'd deliver us from this hell
If it were my way
If it were my way
If ever there comes a day
Renovations blown away
Realize what we've thrown away
Is there no end to this endless war
The fear of man is now what's in store
We look at life as a memory
Long live the dreams that they took from me
If it were my way
I'd deliver us from this hell
If it were my way
If it were my way
