

Hide and Seek

Blondfire

There's no more wait and see
I will be there for you
Here comes the urgency
Out with the old and new
And I won't roll over and die this time
No I won't roll over and dieCHORUS:
Hide and seek
Tell me what you find
Underneath
You're still on my mind
Bittersweet
We've been searching our whole livesVERSE 2:
Swimming the thousand seas
Watch the horizon bloom
Mind on a memory
Stuck like a happy tune
And I won't roll over and die this time
No I won't roll over and dieCHORUS
Hide and seek
Tell me what you find
Underneath
You're still on my mind
Bittersweet
We've been searching our whole livesBRIDGE:
Last night I lost my sanity
Run hide and seek another remedy
Show yourself now
Black leather bleeds right through the seams
This dream ain't nothing like it seems
And I won't roll over and die this time
No I won't roll over and dieCHORUS:
Hide and seek
Tell me what you find
Underneath
You're still on my mind
Bittersweet
We've been searching our whole lives
