Sweetest Thing

Rachel Farris

Sweetest Thing
Music and Lyrics by Rachel Farris 2012
I could be wealthy enough for houses all around
I could be funny
Book a full house in every town
I could be slamming, my body in the greatest shape
I could be tanning out by the ocean on the cape
Its still the sweetest thing to fall in love
And no one knows what youve been dreaming of
Its hard to walk around and keep your cool
The natural thing is grinning like a fool
Its still the sweetest thing
Its still the sweetest thing
Its still the sweetest thing
I could be honored for an invention like the car
I could be brilliant, have top degrees and pass the bar
I could be famous for all the hit songs of my time
I could be cherished and have my face on every dime, every dime
I could have everything
I could have everything
But its not the same
I still want love
I still want you
