

Teenage Nervous Breakdown

Nazareth

(copyright lowell george, 1971 naked snake music)

Well, some contend that this rock'n'roll
Is bad for the body, bad for the soul
Bad for the heart, bad for the mind
Bad for the deaf and bad for the blind
It makes some men crazy and then they talk like fools
It makes some men crazy and then they start to drool
Unscrupulous operators could confuse

Could exploit and deceive
The conditional reflex theories
Change the probabilities, I said it's a
Crass and raucous crackass place
With a pavlov on the human race
It's a terrible illness, a terrible case
And usually permanent when it takes place
It's a teenage nervous breakdown
It's a teenage nervous breakdown
It's a teenage nervous breakdown
