

# Stay a While

[Rakim](#)

Clark Kent bring it on What you wanna say to make me stay a while?  
What you wanna say to make me wanna stay? What you wanna say to make me stay awhile?  
What you wanna say to make me wanna stay? Just me and my peeps we gettin' buzzed, lookin' for clubs  
Misses with kisses and hugs, lookin' for love  
She gotta be nice with hers, even with cookin' some grub  
Once I'm in I meet her friends then I'm hookin' my thugs We'll be blowin' hundreds, always knowin' where the  
fun is  
Roadrunners findin' more spots than Columbus  
Pocket full of phone numbers from some of the world wonders  
I take my time and find where the right one is Smooth as jazz but more than a half, ready for math  
And on a steady path, like Betty Shabazz  
And when I see the wiz I'm a step to my biz  
And there she is, let's see if she pass the quiz It's appropriate we go get soakin' wet  
Toast, we met, become close associates  
The place is ours by now I can embrace your style  
So much flavor I can taste your smile, stay awhile
