

# Frustrated Again

## Infectious Grooves

-Muir-Trujillo-

Frustrated again! (4x)

Destroy my vision - mental collision. The purpose  
fading - you keep me waiting

Like stuck in traffic - my thoughts go static again

Frustrated again! (4x)

Start with lying - there's no denying. My mind starts  
slippin' - mentally trippin'

Your apathy - comes right back to me

Frustrated again! (4x)

(lead)

Frustrated again! (2x)

Your rationale - don't understand how. Lose  
concentration - find more frustration

Learned no lesson - but you keep messin' with me

Frustrated again
