

# You Move

## Depeche Mode

We had something, that was yesterday  
Temptations knocking at my door  
You talk to me about the life we could've had  
But we don't have that life no more But I like the way you move  
Yeah I like the way you move for me tonight  
I like the way you move  
I like the way you move for me tonight  
Alright now If you give me something that you and I can play  
Let me ring your bell  
I don't need you, I don't need your ball and chain  
There's no water in that well But I like the way you move  
I like the way you move for me tonight  
I like the way you move  
I like the way you move for me tonight  
Alright yeah  
All night  
Alright now  
All night Imagination is all it takes  
You came knocking at my door  
You talk to me about the life we should've had  
You know, you could have given more But I like the way you move  
Yeah I like the way you move for me tonight  
Yeah I like the way you move  
I like the way you move for me tonight  
Alright now  
All night
