

# Grow Up Get to Work

[Andrea Hamilton](#)

Never never break out in song  
When someone by you is sad and lonely  
You could be the irony that takes them over

And donâ€™t you donâ€™t you tap feet in time  
If you have music in mind  
Someone might think youâ€™re so impatient  
They might take it personally

Prechorus:  
How oh how can i live when they tell me

Chorus:  
Grow up  
We need you to scrape the sky for us so stand in line you know you're  
Old enough  
You gotta cut it out come on get serious (end here 1st ch)  
Why don't ya  
Just grow up (high)

Verse:  
Forget about the dreaming you did  
Beneath that pale ugly moon it's just a  
Waste of light it's not as bright as silver in the bank

Prechorus:  
How oh how can i play when they tell me

Bridge:  
Wipe that smile off your face  
And be an adult pick up the pace

Why don't ya oh o-oh o-oh
