The Warning

embrace today

you got to live with the pain every time i read about your fucking story
and the way they've become.
they're all the fucking same, after all this time after all these years,
you never had the chance to say your wrong,
you tried to blame me for all the shit i never said
if i could take back everything i gave you.
i would. because your the one whos got to live with the pain.
your the one whos gonn amake the same mistakes.
and all the time i tried to warn you, you mean shit to me.
so fuck you, your the one whos gotta live with the pain,
and i tried to warn you.
