The Greatest Light Is the Greatest Shade

The Joy Formidable

A glass, a view, a mirror, which one
Distracts like open windows in the gusts
A calm day will come
A calm day willThis dream is, this dream is
This dream is in a telescope now
This dream is, this dream is
This dream is, this dream is
This dream is in a telescope now
This dream is, this dream isFever in bedtime covers go unknown
This fright, it grows and misses, sinks and floats
A calm day will come, my calm day willThis dream is, this dream is
This dream is in a telescope now
This dream is, this dream is
This dream is, this dream is
This dream is in a telescope now
This dream is, this dream isA calm day will comeFever in bedtime, covers go unknown
Until two eyes out of the darkness bring hope closeThis childish heart won't wait
It dances keeps me awake to think on, to think on
You're the greatest light, the greatest shade
It means that I can be happy for you, happy for youHappy for you, happy for you, happy for you
Happy for you, happy for you, happy for you
Happy for you, happy for you, happy for you
Happy for you, happy for you, happy for you
Happy for you, happy for you, happy for you
Happy for you, happy for you, happy for you
Happy for you, happy for you, happy, happy for you
