

# Say You Will

Robert Palmer

Say you will  
Say you will Please surrender  
(Say you will)  
To me  
(Say you will) Please say this, I have been seeking this moment  
(Say you will)  
Please say you'll let me take you for my wife  
(Say you will) Our love will grow tonight if you will  
(Say you will)  
Give me your answer, give me your answer  
(Say you will) You will honor and obey me  
I will love and cherish you  
For poor or for richer, darling  
Forsaking everyone but you Please surrender  
(Say you will)  
To me  
(Say you will) Our love will grow tonight if you will  
(Say you will)  
Give me your answer, give me your answer, give me your answer  
(Say you will) With this body I thee worship  
Let them forever off their peace  
For worse or for better, darling  
Holding on to you as long as you live Say you will  
I will love and comfort you, yeah  
If you only say that you will  
Take me, illegal, unlawful  
To have and hold and keep from this day forward Please surrender to me  
Please surrender to me  
(Say you will)  
Give me your answer, give me your answer  
(Say you will) Please say this, I have been seeking this moment  
(Say you will)  
Please say that I can trust you  
(Say you will) Please surrender  
(Say you will)  
To me  
Give me your answer, give me your answer  
(Say you will) Please surrender  
(Say you will)

To me
