Sinking Hearts

The Organ

remember when i left you
i couldn't say your name
or other crucial things like i love you,
oh, that's a shame
oh no, i think i'm falling
oh no, i think i'm fine
our hearts didn't come together
but I saw the two collidei can the see the hearts sinkingremember when i left you
i couldn't say your name
or other crucial things like i love you,
oh, that's a shame
i don't know if you're hearing
my voice or the reprise
our hearts didn't come together
but I saw the two collidei can see the hearts sinking
