

# Sinking Hearts

## The Organ

remember when i left you  
i couldn't say your name  
or other crucial things like i love you,  
oh, that's a shame  
oh no, i think i'm falling  
oh no, i think i'm fine  
our hearts didn't come together  
but I saw the two collide i can see the hearts sinking  
remember when i left you  
i couldn't say your name  
or other crucial things like i love you,  
oh, that's a shame  
i don't know if you're hearing  
my voice or the reprise  
our hearts didn't come together  
but I saw the two collide i can see the hearts sinking
