Life's A Dream

Lighthouse Family

What you gonna do with your life?
When you gonna spend your time
The way that you've always wanted?
When you gonna make up your mind?
You won't get anywhere until
You know what it is you really want to doAnd when you know where you're going to
There'll be no stopping youIf only you could remember your dream
You could be all the things you've always wanted to beWhat's been stopping you all this time?
The worst thing that could happen
Ain't as bad as you thought it would be
When you gonna go out and shine?
'Cos sitting around just thinking about it
Ain't ever gonna do you any goodAnd when you know where you're going to
There'll be no stopping youIf only you could remember your dream
You could be all the things you've always wanted to be
You only gotta remember your dream
You could be all the things you've always wanted to beIf only you could remember your dream
You could be all the things you've always wanted to be
You only gotta remember your dream
You could be all the things you've always wanted to be
If only you could remember your dream
You could be all the things you've always wanted to be
