

# Witchhunter

Zao

I watch as my dreams bleed  
Which one of you hunters got me  
She's waiting and watching  
Will she be there for me Who's got me, who loves me  
I've lost my turn  
This world, this world I've created  
It makes me and breaks me, all alone, all alone I watch as my dreams bleed  
Which one of you hunters got me  
She's waiting and watching  
Will she be there for me Who's got me, who loves me  
I've lost my turn  
This world, this world I've created  
It makes me and breaks me You think you know it  
But you know you don't know anything  
You think you got it  
But you got it all wrong again You think you know it  
But you know you don't know anything  
You think you know it  
But you got it all wrong again You think you know it  
But you know you don't know anything
