Thrash

metal evolution

Oh, when you feel like it, you just do it
You never move around it, you walk through it
Well, you don't give a damn, where it came from
'Cause everybody gonna have to chew your junk
Does it feel right?
Does it feel right?
Well, let's jump, let's jump to a blazing beat
When you close your eyes or strap into your seat
You got the throttle wide open, I head your engines scream
It's a terrifying scene, do you know what I mean?
Well let's funk, let's funk in my car
Let's jump to the nearest star
'Cause you won't get far with all that trash
When all you do is thrash! Thrash! Thrash!
Let's funk, let's funk in my car
Let's jump to the nearest star
'Cause you won't get far with all that trash
When all you do is thrash!
Motivator is the name of the game
And if you wanna know, you're the biggest pain!
You pull the plug out, when the chips are down
You stand on my face and kick me when I'm down!
Well let's funk, let's funk in my car
Let's jump to the nearest star
'Cause you won't get far with all that trash
When all you do is thrash! Thrash! Thrash!

Let's funk, let's funk in my car
Let's jump to the nearest star
'Cause you won't get far with all that trash
When all you do is thrash! Thrash! Thrash!
Thrash! Thrash! Thrash!
Well let's funk, let's funk in my car
Let's jump to the nearest star
'Cause you won't get far with all that trash
When all you do is thrash! Thrash! Thrash!
Let's funk, let's funk in my car
Let's jump to the nearest star
'Cause you won't get far with all that trash

When all you do is thrash! Thrash! Thrash!
Thrash! Thrash! Thrash!
Well let's funk, let's funk in my car
Let's jump to the nearest star
'Cause you won't get far
All you do is
All you do is
Let's funk, let's funk in my car
Let's jump to the nearest star
'Cause you won't get far with all that trash
When all you do is thrash! Thrash! Thrash!
Thrash! Thrash! Thrash!
