

Everybody Has An Aura

Rufus

Yeah, uh hmm
Yeah, uh hmm
Yeah, uh hmm Strange vibrations in the air
Is anybody really aware that
Everybody's got an aura
It can either work against ya or it can work for ya What is this madness goin' down?
While we're walkin' on a solid ground
Cause even the mighty stand accused
I think we've all been used We've got to get ourselves together, yeah
If we want the situation to get better (get better)
Yeah, said yeah, yeah Politicians tryin' to draw the right conclusions
Think about it
Is that the right solution? Cause everybody's got an aura
It can either work against ya or it can work for ya We've got to get ourselves together
If we want the situation to get better (get better) Yeah, yeah
Uh hmm
Uh hmm
Uh hmm Strange vibrations in the air
Is anybody really ware that
Everybody's got an aura
If you're not careful, it can harm ya Everybody's got an aura (repeat to fade)
