

Tropical

Ali Tomineek

I'm addicted to yo' energy
Feel like you the one that was meant for me
You the missing piece to my recipe
Starting to believe ain't no one else for me
And Bombay brought the champagne through
They celebrate cause the young boy making moves
I don't even drink and you know that
But I'm love drunk, blacking out, word to Kodak
Picture perfect but without a picture you still a goddess
When you post a picture I miss when I feel your body
Put your name on a pedestal when I speak about it
Picture us together tell me how you feel about it

[Chorus]

She like anythings possible, nails all tropical
Now I'm jumping over obstacles
I do whatever cause I ride with you
Baby girl I ride with you
Baby girl I ride with you
She like anythings possible, nails all tropical
Now I'm jumping over obstacles
I do whatever cause I ride with you

[Verse 2]

You told how your ex dude did you
But you ain't think about yo' next dude, did you?
You say I don't know if that shoe fits you
Well let me prove it to you, that's too simple
I give you my all, hope you mirror me back
Hope I don't slip and I fall right into a trap
But when I fell on your lips, I felt you kissing me back
I had to put that in my memory bag, this is a fact
I won't tell you I love you with no physical act
This ain't a act, and you ain't just a trick in my bag
I ain't magician, I can't just disappear with a snap
If I do I know won't be sitting here when I'm back

[Chorus]

I'm tryna' get lost with you, nails all tropical
Now I'm jumping over obstacles

I do whatever cause I ride with you
Baby girl I ride with you
Baby girl I ride with you
She like anythings possible, nails all tropical
Now I'm jumping over obstacles
I do whatever cause I ride with you
Baby girl I ride with you
Baby girl I ride with you
Baby girl I ride with you
Baby girl I ride with you
Baby girl I ride with you
Baby girl I ride with you
