Germs

Mode 9

My ears are ringing
There's a tingling in the back of my throatCan't stop all the pressure building up in my head
In my headEverybody wants me
Everybody needs me
Everybody needs meWhat's hurting me when I breath?
Perhaps it's just mold on the ceiling?Everybody's coming down with the same thing
Everybody's coming down with the same thingGerms!
They'll get you when you're not careful
Germs!
They'll get you when you're not careful
Germs!
They'll get you when you're not carefulGerms!
They'll get you when you're not careful
Germs
They'll get you when you're not careful
Germs!
They'll get you when you're not carefulBetter get some medicine if you know what's good for you
