

Gotta Be Tonight

Lifehouse

Gotta keep your head up and move along move along
Gotta keep your head calm and carry on carry onGotta keep your head up and move along move along
Gotta keep your head calm and carry on carry onGotta keep your brights on and cruise along cruise along
Gotta keep your head up and move along move along(Gotta keep your head up, gotta keep on moving
along)We're driving all night long chasing miles and breaking dawn
We gotta take a chance while we're still young
But it's gotta be tonight
It's gotta be tonightGotta keep your head up and stay awake stay awake
Gotta keep your head up and stay awake stay awake
This road is rough gonna be heartache heartache
Gotta keep your head up and stay awake stay awakeWe're driving all night long chasing miles and breaking
dawn
We gotta take a chance while we're still young
But it's gotta be tonight
It's gotta be tonightGotta keep your head up and move along move along
Gotta keep your head calm and carry on carry on
Gotta keep your brights on and cruise along cruise along
Gotta keep your head up and move along move alongWe're driving all night long chasing miles and breaking
dawn
We gotta take a chance while we're still young
But it's gotta be tonight
It's gotta be tonight(Gotta keep your head up, gotta keep on moving along)
(Gotta keep your head up, gotta keep on moving along)
