

Strap Me In

The Cars

Well, you took me for a ride
You beat me to the gun
And from the other side
Well, you came undone But when you told me to
I wanna give in
Just like you want me to
Oh, oh, I'm fallin' through Oh, you better strap me in
All night long
You gotta strap me in
All night long
Got to strap me in
All night long
All, all, all night long Well, you took me by the way
And you showed me what is fun
Just like a ricochet
Uh! Back you come And when you tell me to
I wanna give it
Just like you want me to
Oh, oh, I'm fallin' through Oh, you better strap me in
All night long
You better strap me in
All night long
You better strap me in
All night long
All, all, all night long All night then Well, you took me for a ride
Oh, you beat me to the gun
And from the other side
Oh, well, you came undone And when you tell me to
I wanna give in
Just like you want me to
Oh, oh, I'm fallin' through Oh, better strap me in
All night long
(You better strap me in)
All night long
(Strap me in)
All night long
All all Well, you better strap me in
(Strap me in)
(Oh, strap me in)

All night long
(Strap me in)
All, all
Oh, strap me in
All night longStrap me in
All, all
Oh, strap me in
All night long
Strap me in
All night long
Strap me in
All night long
