

God Thinks (Live Version)

Voltaire

God thinks all blacks are obsolete farm equipment
God thinks the Jews killed his son and must be punished
God thinks the white man is Satan
God, they know what God thinks God thinks we should all convert to Judaism
God thinks we must all be Christians and
God thinks we should all embrace Islam
God thinks the only true religion is Hinduism And I
I know what God thinks
God thinks you're a waste of flesh God prefers an Atheist God thinks all people like you are evil
God thinks all people like you are an embarrassment to creation
self-righteous, judgemental, first to throw the stone
and use His name for your own protection God thinks the sun revolves around the Earth
God thinks there was something very wrong with Copernicus
God thinks abortion is murder and God thinks everything that science gave us is wrong
God thinks women deserve it
God thinks AIDS is a form of punishment I hate people who blame the Devil for their own shortcomings and I
hate people who thank God when things go right And I
I know what God thinks
God thinks you're an idiot God prefers a heretic God God
God thinks all people like you are evil
God thinks all people like you are an embarrassment to creation
self-righteous, judgemental, first to throw the stone
and use His name for your own agenda God is a liberal
God is a democrat
God wants you to vote republican
never trust a man who puts his words in the mouth of god and says that it's absolute truth
its lies and it smells like death
its all in a day's work taking money from the poor
Why do you think that God would need your dirty money
if he wanted to start a holy war? self-righteous, judgemental, first to throw the stone
and use His name for your own protection God thinks puppies need to die and
God thinks babies need to drown 'cause God is neither good nor bad
God is you and me
God is Everything
